Potential Sponsor,

North Florida Wildlife Center: wildlife conservation through public educational outreach, propagation of rare & endangered species, and habitat restoration efforts.

The North Florida Wildlife Center is a 501(c)(3) nonprofit organization that strives for the highest standards of animal care, education, environmental service, and operations. The NFWC is active in education initiatives, breeding programs, and ecosystem recovery efforts around the world, as well as in its own community. The organization has been a top attraction in North Florida since its opening in 2019, drawing visitors from across the Southeast United States, and beyond.

As a small, privately run organization, the North Florida Wildlife Center relies on charitable donations and sponsorships from individuals and businesses to continue its mission, as well as the expansion and improvement of its facilities. We offer two primary sponsorship opportunities: Founding Fifty sponsorship and exhibit sponsorship. The Founding Fifty is a group of sponsors dedicated to supporting the development of our organization. As a Founding Fifty sponsor, your name or organization will be prominently displayed on our special Founding Fifty wall. On the other hand, exhibit sponsors have the opportunity to support a specific animal on our property. With an exhibit sponsorship, your name or logo will be showcased directly on the corresponding exhibit, providing a lasting recognition of your contribution to wildlife conservation. Sponsorships include permanent signage, online exposure, tax write-offs, and 50% off Admission year-round. We would be humbled to arrange a site visit or phone call with you to discuss possible means of support.
